SalukiNet <http://salukinet.siu.edu> (then choose "Your Records")

Available to students at the Computer Learning Centers (Faner 1025/1031, ASA 112, Communications B9, Rehn 21) or from any computer with Internet access and Netscape 4.0+, Internet Explorer 5.0+, Mozilla 0.9.5+, or Opera 6.0+ browser software.

- To see your SIUC student records on SalukiNet, you will need to login by entering your 9-digit Student ID and your 4-digit PIN on the "Student Login" page. *New students are initially assigned a random PIN and are normally informed of it in writing at the time of admission or registration. More information on PINs and PIN problems can be found on SalukiNet by clicking on the "SalukiNet Help | Login to SalukiNet" option (or go directly to <https://salukinet.siu.edu/sis23/helptab/login.htm>).*
- SalukiNet is normally available around the clock 7 days a week, except for Sunday mornings. Exact hours can be found by clicking on the "SalukiNet Help | Times of Availability" option (or <https://salukinet.siu.edu/sis23/helptab/availability.htm>).
- To help keep your SalukiNet account secure, please be sure to change your PIN periodically.

Miscellaneous Information

Office Directory

Submit changes through appropriate channels to your Vice Chancellor. The normal times are during August. Notify Telecommunications (453-2484) of other directory changes during the year.

Staff Directory

This staff directory is based on information in the Personnel/Payroll Information System. Early in fall semester, all employees will receive a notice with the individual's information. If the information is not correct or complete, it is your individual responsibility to submit the desired changes by completing new forms, *in person*, at Human Resources. The purpose of the notices is to provide Human Resources advance notice of changes (new appointments, changes in marital status, changes in address, etc.). No changes actually are made until properly executed forms or appointment papers reach Human Resources.

Facsimile Service (FAX)

FAX Service is available through the Telecommunications Customer Service Office in the Student Center. To transmit a document, you may stop in or send a facsimile including the receiver's name and facsimile number. Charges for sending or receiving Facsimile documents may be billed to a department account or student bursar account.

The SIUC number for receiving facsimiles is 618-453-4000. Business hours are 8:00 a.m. to 4:30 p.m., Monday through Friday.

Data Communications

The SIU campus network consists of a multi-tiered network with Gigabit Ethernet at the heart of the network.

The Gigabit Ethernet interconnects all major buildings on campus at speeds up to 1000Mbps. Second level networks exist in each building providing services to each network computer in each building at speeds up to 100Mbps. Certain buildings on campus have wireless connection capability for those devices equipped with wireless network interface cards (NICs.)

All hosts (computers) on the SIU Campus Network are running TCP/IP software and have an IP address. These Internet hosts can be readily identified by their common IP address (131.230.x.y) or their host name (a.b.siu.edu). Internet connectivity is also available via the various dial-up connections listed below.

SIUC is connected to the Internet and to Internet2 through the Illinois Century Network. ICN is a telecommunications backbone providing high speed access to data video and audio communication in schools and libraries, at colleges and universities, to public libraries and museums, and for local government and state agencies.

With various TCP/IP client program (Telnet, FTP, Mosaic, Gopher, electronic mail, etc.), SIUC users have access to thousands of other Internet hosts and users, all across the world.

Dial-Up Telephone Number

Teletypewriter for Communication with Deaf Persons

A teletypewriter (TTY) is located in the Disability Support Service Office, Woody Hall B-150, to facilitate telephone communication by or with deaf individuals. Hearing faculty,

staff, and students needing to communicate with a deaf person may use this TTY. Toll calls must be paid by the caller or the caller's department. Disability Support Service is open from 8 a.m. to 4:30 p.m., Monday through Friday. Phone 618-453-5738 (voice) or 453-2293 (TTY).

Telecommunications Relay Service

Dial 711 for TRS assistance from any wireless, wire line or pay phone. TRS provides a communications link between people with hearing or speech disabilities using a text telephone (TTY) and people who use voice phones. By dialing 711, you will reach a TRS center. A communications assistant at the center sets up a connection between the TTY caller and the phone user and "relays" the discussion by typing in the voice-conversation and speaking the text message. There is no charge for dialing 711. Please note that 711 is to be used to reach the TRS. For EMERGENCIES, you should continue to use 911.

Disaster Control Signals and Storm Warning Information

Take Cover Signal

The Take Cover signal is a long, steady blast of three to five minutes duration. Persons in the area should take cover in the designated place. Campus streets should be cleared, gas and electricity should be turned off in the buildings, telephones should be used only for emergencies, and windows and doors on the North and East may be left open with discretion.

All Clear Signal

The All-Clear signal will be broadcast over WSIU-FM (91.9 MHz) and WSIU-TV (Channel 8).

HELP CALLERS LOCATE YOU!

AUTOMATED ATTENDANT

Automated attendant service can answer your incoming telephone calls with a menu that allows your callers to navigate to the information they need through their touch call telephone. Automated Attendant Service is especially valuable when a department full time receptionist position is unoccupied or there is a need to answer calls 24 hours a day.

- Play announcements that you record and change whenever you want.
- Transfer a caller to another telephone number or other nested menus.
- Answer your office line when the office is closed or your receptionist or employees are already all on other calls
- Pre-screen and direct a high-volume flow of calls.
- Implement standalone sources of recorded information.

Contact the Telecommunications Customer Service Center at 453-2484 to obtain more information and arrange a time for one of our representatives to visit your office to design and implement a system to meet your specific requirements.

American Red Cross

Together, we can save a life

"Thank you
for making
our country
a better place."

Since September 11, our world has changed.
And Americans of all ages have changed with it, coming together with purpose and hope.
Your caring and concern has led the way. Because of your continued support,
our nation has become a safer place for our families.

To everyone who has helped another person during a time of need,
we salute you.
